Below is student exam screen.

The screenshot shows a student exam interface for the subject 'IMAGE PROCESSING'. The top bar includes a 'Home' link, the subject name, a 'Remaining Time' of 06:36:29, and an 'END EXAM' button. The main area displays 'Question - 2/10' with a 'Question Number' label, the subject name, and a '[1 marks]' label. The question text is: 'The type of Interpolation where the intensity of the FOUR neighbouring pixels is used to obtain intensity a new location is called'. Below the question are four options: A) cubic interpolation, B) nearest neighbour interpolation, C) bilinear interpolation, and D) bicubic interpolation. Annotations include: 'Click any one option to give answer' pointing to the options; 'If Question/Option has Image then click on image itself to enlarge it' pointing to the question text; 'Answer is saved, student can revisit it' pointing to the 'SAVE & REVIEW' button; and 'To visit previous question', 'To save answer and visit to next question', and 'To visit next question' pointing to the 'PREVIOUS', 'SAVE', and 'NEXT' buttons respectively. On the right, a 'Questions Overview' panel shows a grid of question numbers 1-10, with 1 green (ANSWERED), 2-10 red (NOT-ANSWERED), and a blue circle (REVIEW) with a note 'Answer is saved but student want to revisit it'. A chat icon is at the bottom right with the text 'If student is having issue/doubt, then he/she can chat with Proctor/Supervisor for the same'.

NOTE: One Must click **SAVE / **SAVE & REVIEW** for counting in Final marks**

Student can click on “Chat Icon” to report issue/doubts to Proctor/Supervisor.

The screenshot shows a student exam interface for the subject 'IMAGE PROCESSING'. The top bar includes a 'Home' link, a 'Logarithm Table' link, the subject name, a 'Remaining Time' of 08:25:00, and an 'END EXAM' button. The main area displays 'Question - 1/10' with a 'Click here for logarithm table' link, the subject name, and a '[1 marks]' label. The question text is: 'Quantitatively, spatial resolution cannot be represented in which of the following ways'. Below the question are four options: A) line pairs, B) pixels, C) dots, and D) none of the Mentioned. Annotations include: 'Click here for logarithm table' pointing to the link; 'Chat with Proctor' pointing to a chat icon; and 'Chat with Proctor' pointing to a chat window. The chat window shows a conversation with 'PROF. PAWAR DEEPAK PRAKASH' where the student reports a slow network connection and a device camera problem, and the proctor responds with 'Hi', 'Test it properly', and 'let us test again'. The bottom bar has 'SAVE', 'SAVE & REVIEW', and 'NEXT' buttons.

Student can click on “**End Exam**” button to end examination.
