

\* Assignment :- 1 \*

Q1] List top 10 Journals & conference in your (branch related) / of your interest.  
→

Journals:-

- ① IEEE Transactions on computers
- ② ACM Computing surveys
- ③ Journal of Machine Learning Research.
- ④ Nature Machine Intelligence.
- ⑤ IEEE Transactions on Neural Networks & Learning Systems.
- ⑥ Elsevier Journal of Information sciences.
- ⑦ ACM Transactions on Internet Technology.
- ⑧ Springer's Artificial Intelligence Review.
- ⑨ Journal of Systems & Software.
- ⑩ Computer & security.

Conferences:-

- ① NeurIPS
- ② ICML
- ③ CVPR
- ④ AAAI
- ⑤ IEEE INFOCOM
- ⑥ ICCV
- ⑦ ACM SIGKDD
- ⑧ IEEE ICDM
- ⑨ IEEE IROS
- ⑩ EUROCRYPT.

Q2] List down scope / areas of submission in each journal / conference.

→

- ① Algorithms, hardware systems, distributed computing.
- ② Review articles on computational topics.
- ③ Deep learning, supervised / unsupervised learning.
- ④ AI applications, ethics in AI.
- ⑤ Neural networks, pattern recognition.
- ⑥ Data mining, information retrieval.
- ⑦ Web security, cloud computing.
- ⑧ AI theories, cognitive sciences.
- ⑨ Software engineering, software testing.
- ⑩ Cybersecurity, cryptography.

Q3] Which topic / area is of your interest & current trends in that domain?

→

- ① Explainable AI (XAI) : Making AI models interpretable.
- ② Federated Learning : ~~Learning~~ Training models without centralized data.
- ③ Edge AI : AI on edge devices instead of cloud.
- ④ AI in Healthcare : Disease detection, personalized medicine.
- ⑤ Self-Supervised Learning : Reducing labeled data requirements.

Q4] With reference to your project work article based on ASEP, which journal / conference you think is suitable for submission. Why is it suitable & if not why.

Project Name : DawaTrack.

Domain : Health care.

Journals :

- ① IEEE Journal of Biomedical & Health Informatics.  
scope : AI in health care, predictive analysis.  
why? : AI driven.
- ② Elsevier Journal of Medical Systems.  
scope : Medical logistics, smart tracking.  
why? : integrates perfectly.
- ③ ACM Transactional on Internet Technology  
scope : IoT based application.  
why? : real-time tracking.

Conferences :

- ① IEEE :  
why? : AI driven healthcare solutions.
- ② IEEE ~~can~~ International conference on Blockchain.  
why? : blockchain based tracking.
- ③ ACM CHI conference on Human Factors in Computing Systems.  
why? : User friendly interface for tracking drugs.
